Getting its start in 1951 with just 13 people, City Bible Church has grown to include over 5,000 members meeting at multiple church campuses in the Portland/Vancouver metro area. Since adding its 217 Campus on Portland's west side in Tigard in 2003, the church began looking for a location in Vancouver, Washington to accommodate its Clark County membership of about 800. In 2006, the Mountain View Ice Arena, a 69,000-square-foot building was purchased for \$4.8 million and leased to the church with the eventual goal for the church to purchase. The church had an overall estimated budget of \$3.2 million dollars in total for improvements to the space. Onpoint Designs was brought onboard to design the acoustical, audio, and lighting systems for an 800-seat auditorium, classrooms and a café/meeting area that was included as part of those improvements.
