The 1600 seat auditorium is designed with several things in mind; Acoustics, Sightlines, Intimacy, Flexibility and Access to seating and the stage. The acoustics of large rooms should give you a feel for what is about to take place. The acoustical design objective of this space is to create a warm and inviting feel with a worshipful atmosphere. The ability to use the auditorium for more than just weekend services is one of the owner's main objectives. The types of uses range from Dinner Theatre, Concerts and Local Community events.

Therefore, we designed the stage in this large auditorium is sized to accommodate these varying types of uses.

- Theatrical Productions (large sets and props)
  - Dinner Theatre
  - Easter & Christmas Productions
- Concerts (local and national acts)
- Conferences
  - Leadership
  - Satellite Series
  - Men's & Women's
- Community Events
  - School functions (Band, Orchestra...)
  - Graduations
- Weekend Services
