Executive Pastor Ben Hoerr
Phone: 217.384.3070

When the Vineyard Church in Urbana outgrew its existing facilities, they embarked on an ambitious 41,000 square-foot expansion. The addition houses a new worship center and community life space—a large atrium featuring a bookstore, reception center, café, conversation clusters, new restrooms, and other multi-purpose rooms. For the 1100-seat worship center, Onpoint Designs designed acoustical treatments and audio, video, and lighting systems within an infrastructure that not only met the client's immediate need for weekend services, dramas, and concerts but also provided for its future expansion to 1800 seats.
